

MATRIX-002

In-Depth Interview Debrief Report

Purpose:

- 1) Provide a general overview of the content discussed in the IDI
- 2) Record information that might not be reported otherwise (i.e. context and meaning of behaviors; e.g. non-verbal cues, emotional states, body language, etc.)
- 3) Delivery preliminary information for analysis (e.g. subjective impressions of the participants' behavior, emerging themes, etc.)

Instructions.

Please complete this report via REDCap within 24 hours of the IDI.

Interviewer:	Length of interview:
Interview Date:	Language of interview:
PTID:	Film shape (per participant) (rounded/square):
Other staff present:	Reports of sex with film use (Y/N):
Location of interview:	

Debriefing Summary
<ol style="list-style-type: none">1. Provide a brief physical description of the participant and any striking observations about their character, manner, or appearance. Include your impressions about their current circumstances (e.g., school, work, living environment, social setting).2. How did the IDI go today from your perspective? <i>Briefly describe general impressions of how the participant responded to the interview, their emotional reactions (excited, sad, bored, confused, etc.), and any other important information about the context of the interview and experience.</i>3. What stood out to you about the participant's experience with using the vaginal film? <i>This could include their first impressions, their thoughts and feelings about the insertion process, concerns, side effects, general use experience, or changes in use over time.</i>4. What did the participant share about disclosing film use to others?5. Provide a brief summary of the participant's comparison of the two different film shapes.6. How did the participant feel about the vaginal film's "fit" with their life and sexual relationship(s)? <i>This could include their experience of having sex while using the vaginal film, whether anyone else influenced their use of the film, or if they made any adjustments to their life when using the film.</i>7. What potential changes did the participant share about what would make the film better and easier for them (<i>shape, packaging, use, etc.</i>)?8. What questions do you have about the interview? What did you hear today that was unexpected or surprised you?9. Provide a brief summary of any concerns that arose during the interview that may require follow-up, such as misunderstanding of key study concepts, AEs, PDs, or SH (e.g., required study procedures, confidentiality).
