

## MATRIX-002

### Sexual Partner In-Depth Interview Debrief Report

**Purpose:**

- 1) Provide a general overview of the content discussed in the IDI
- 2) Record information that might not be reported otherwise (i.e. context and meaning of behaviors; e.g. non-verbal cues, emotional states, body language, etc.)
- 3) Deliver preliminary information for analysis (e.g. subjective impressions of the participant’s behavior, emerging themes, etc.)

**Instructions.**

Please complete this report via REDCap within 24 hours of the IDI.

Sexual Partner PTID:	Length of interview:
Trial participant PTID:	Language of interview:
Debriefing Summary	
<ol style="list-style-type: none"> <li>1. Provide a brief physical description of the participant and observations about their character, manner, or appearance. Include your impressions about their current circumstances (e.g., school, work, living environment, social setting).</li> <li>2. How did the IDI go today from your perspective? <i>Briefly describe general impressions of how the participant responded to the interview, their emotional reactions (excited, sad, bored, confused, etc.), and any other important information about the context of the interview and experience.</i></li> <li>3. What was their understanding of their partner’s use of the vaginal film? <i>This could include initial thoughts/feelings, if those changed over time, their understanding of insertion, their feelings on the abstinence period.</i></li> <li>4. How did they feel about vaginal product use in general? How did they feel about this particular product, the vaginal film? How did they feel about the film as a future HIV prevention option (<i>discretion, confidence in preventing HIV, comparison to other strategies</i>)?</li> <li>5. How did the film feel to the participant during sex? Did they share any notable changes during sex because of the film? Did the participant notice any changes to their partner’s vagina?</li> <li>6. How did the participant feel about their partner’s use of the film (<i>supportive/unsupportive, likes/dislikes, benefits/risks</i>)? How did the participant feel about the use of these vaginal films in the future? <i>This could include what their friends would think, if they would use or recommend it, and how they would feel about possible contraception in addition to HIV prevention in the film).</i></li> <li>7. What questions do you have about the interview? What did you hear today that was unexpected or surprised you?</li> </ol>	

8. Provide a brief summary of any concerns that arose during the interview that may require follow-up.

9. Did the participant discuss any negative impacts that they or the trial participant experienced as a result of study participation/study product use?

<sub>1</sub> Yes, briefly describe: \_\_\_\_\_
